Achievements

The 4th quarter 2008 was just as dynamic (+23.4% including +15.6% internal growth) as the first 9 months of the year.

Over the entire year, revenues increased 21.4% (compared to +20% the previous year). Internal growth was +16.4% (after +15.7% the previous year).

Like revenues, the operating margin (unaudited) will exceed the last estimate, reaching more than 9% (after deducting 0.6% related to costs for bonus shares, stock options and asset impairment).

The workforce at 31 December was comprised of 2,455 people.

The complete and audited annual results will be published on Wednesday, 4 March after the stock market closes.

Outlook

The 2009 forecasts will be announced, as usual, when the first quarter 2009 revenues are published.
