Achievements

NEURONES closes the financial year with annual revenue of €857.2 million, exceeding its expectations.

Growth is driven by digital and data projects (double-digit growth), while AI-related activities confirm a promising upward trend.

With its decentralized and responsive structure, the group took advantage of an environment that became more favorable at the end of the year.

Operating profit thus improved significantly, rising from 7.8% (in H1) to 9.8%* (in H2). For the full year, it stood at 8.8%*, exceeding the latest estimates.

To support this momentum, the average workforce grew by 280 people in 2025.

The full final annual results will be published on Wednesday, March 11, 2026, after the stock exchange closes.

Outlook

In a market that is expected to be more buoyant, forecasts for the current year will be announced, as usual, along with the Group's Q1 revenues.

* being audited.
